

Vesmach

YOUR BAKERY SOLUTIONS PROVIDER

Product Name:

Rotary Lobe Pump

Features:

- High precision non-contact lobes and no metallic inclusions.
- Materials of construction: Low carbon stainless steel pump body and cover.
- High vacuum ability.
- Keep a stable durability for a long operation.
- Rotating shaft and its receiving box has a very processing precision and extremely large volumetric efficiency.
- The interior of pump casing has been machined a structure of totally positive displacement for liquid application.
- Timing gear is in a conical locking structure, ease of timing adjustment.
- Stainless steel shaft of high strength used, discharging high capability

Purpose:

This machine is application for medium viscosity, low viscosity, containing granule, flowing liquid.

Specifications

Theoretical Pump Out (cc/1R)	60-2387
Net Weight	15 kg
Dimension	L 278 x W 140 x H 142 mm
